CONTENTS

PART 1. FEBRUARY

PAGE

BARNES, B. W. and KEARSEY, M. J. (Birmingham). Variation for metrical characters in *Drosophila* populations. I. Genetic analysis . . . 1

KEARSEY, M. J. and BARNES, B. W. (Birmingham). Variation for metrical characters in *Drosophila* populations. II. Natural selection . . . 11

NASRALLAH, M. E., BARBER, J. T. and WALLACE, D. H. (New York). Self-incompatibility proteins in plants: detection, genetics and possible mode of action 23

PERKINS, JEAN M. (Birmingham). Environmental and genotype-environmental components of variability. VI. Diallel sets of crosses . . 29

STAMBERG, JUDITH and SIMCHEN, G. (Harvard, Birmingham, Jerusalem). Specific effects of temperature on recombination in *Schizophyllum commune* 41

JAMES, S. H. (W. Australia). Complex hybridity in *Isotoma petraea*. II. Components and operation of a possible evolutionary mechanism . . 53

COUGHTREY, ANNE and MATHER, K. (Southampton). Interaction and gene association and dispersion in diallel crosses where gene frequencies are unequal 79

TILNEY-BASSETT, R. (Swansea). Genetics and plastid physiology in pelargonium. III. Effect of cultivar and plastids on fertilisation and embryo survival 89

BEAUFOY, E. M. and S., DOWDESWELL, W. H. and MCWHIRTER, K. G. (Ipswich, Bath, Alberta). Evolutionary studies on *Maniola jurtina* (*Lepidoptera Satyridae*): The Southern English stabilisation 1961-68 . . 105

KAYANO, H., SANNOMIYA, M. and KOYA NAKAMURA. (Fukuoka). Cytogenetic studies on natural populations of *Acrida lata*. I. Local variation in the frequency of B-chromosomes 113

NOTES AND COMMENTS

KILLICK, R. Natural selection for a metrical trait in a population of *Drosophila melanogaster* 123

BRANDHAM, P. E. The consequences of crossing-over in pericentric inversions in acrocentric chromosomes 125

ROSS, M. D. Breeding systems in *Plantago* 129

MICHEL, K. E. A test for affinity in maize 133

JONES, D. G. and DAVIES, J. M. L. The origin of a diploid "Hybrid" of *Cercosporella herpotrichoides* 137

REVIEWS:

WALLACE, BRUCE. Topics in population genetics 141

SERRA, J. A. Modern genetics, Vol. 3 142

WHITEHOUSE, H. L. K. Towards an understanding of the mechanism of heredity 143

SPUHLER, J. N. Genetic diversity and human behaviour . . . 145

BOOKS RECEIVED 147

GENETICAL SOCIETY OF GREAT BRITAIN: Abstracts of Papers . . . 149

PART 2. MAY

PERKINS, JEAN M. and JINKS, J. L. (Birmingham). Detection and estimation of genotype-environmental, linkage and epistatic components of variation for a metrical trait 157

EDWARDS, K. J. R. and EMARA, Y. A. (Aberystwyth). Variation in plant development within a population of *Lolium multiflorum* 179

PEGINGTON, C. and REES, H. (Aberystwyth). Chromosome weights and measures in the *Triticinae* 195

ROBINSON, R. (London). Gene assortment and preferential mating in the breeding of German fancy cats 207

JAIN, K. B. L. and JAIN, S. K. (California). Frequency-dependent selection under mixed selfing and random mating 217

CRAIG-CAMERON, T. and JONES, G. H. (Birmingham). The analysis of exchanges in tritium-labelled meiotic chromosomes. I. *Schistocerca gregaria* . 223

BROWN, A. H. D., WEIR, B. S. and MARSHALL, D. R. (California). Optimum family size for the estimation of heterozygosity in plant populations . 233

JAMES, S. H. (W. Australia). A demonstration of a possible mechanism of sympatric divergence using simulation techniques 241

CROSBY, JACK L. (Durham). The evolution of genetic discontinuity: computer models of the selection of barriers to interbreeding between subspecies . 253

NOTES AND COMMENTS:

SOKAL, R. R., BRYANT, E. H. and WOOL, D. Selection of changes in genetic facilitation: negative results in *Tribolium* and *Musca* . . 299

REVIEWS:

WOLSTENHOLME, G. E. W. and O'CONNOR, MAEVE (Eds.). Foetal autonomy 307

DARLINGTON, C. D. and LEWIS, K. R. (Eds.). Chromosomes to-day, Vol. II 307

BOOKS RECEIVED 308

PART 3. AUGUST

COCKERHAM, G. (Pentlandfield). Genetical studies on resistance to potato viruses X and Y 309

PAGE

ANTONOVICS, JANIS and BRADSHAW, A. D. (Stirling and Liverpool). Evolution in closely adjacent plant populations. VIII. Clinal patterns at a mine boundary 349

HEWITT, G. M. and BROWN, F. M. (Norwich). The B-Chromosome system of *Myrmeleotettix maculatus*. V. A steep cline in East Anglia 363

MARSHALL, D. R. and ALLARD, R. W. (California). Isozyme polymorphisms in natural populations of *Avena fatua* and *A. barbata* 373

PARODA, R. S. and JOSHI, A. B. (New Delhi). Correlations, path-coefficients and the implication of discriminant function for selection in wheat (*Triticum aestivum*) 383

GALE, M. D. and REES, H. (Aberystwyth). Genes controlling chiasma frequency in *Hordeum* 393

COSTANTINO, R. F., MUMMA, R. O. and BRUSZEWSKI, T. E. (Pennsylvania). Genetic analysis of a population of *Tribolium*. III. Fatty acid composition of unsaturated fatty acid sensitive mutant 411

JINKS, J. L. and PERKINS, JEAN M. (Birmingham). A general method for the detection of additive, dominance and epistatic components of variation. III. F_2 and backcross populations 419

LUCOV, Z., COHEN, S. and MOAV, R. (Jerusalem). Effects of low temperature on the somatic instability of an alien chromosome in *Nicotiana tabacum* . 431

HAYWARD, M. D. (Aberystwyth). Selection and survival in *Lolium perenne* . 441

BISHOP, J. A. and HARPER, P. (Liverpool). Melanism in the moth *Gonodontis bidentata:* a cline within the Merseyside conurbation 449

NOTES AND COMMENTS:

LADIZINSKY, G. Chromosome rearrangements in the hexaploid oats . 457

HULL, P. Notes on Dr Snell's observations concerning the H-2 *locus* polymorphism 461

RAICU, P., VLADESCU, B., BORŞAN, I. and STAICU, S. Heterogeneity of mitochondria in the interspecific hybrid *Mesocricetus newtoni* × *M. auratus* 465

LEES, D. R. The *Medionigra* polymorphism of *Panaxia dominula* in 1969 . 470

JINKS, J. L. and PERKINS, JEAN M. Environmental and genotype-environmental components of variability. VII. Simultaneous prediction across environments and generations 475

REVIEWS:

MORTON, NEWTON, E. (Ed.). Computer applications in genetics . . 481

TURNER, H., NEWTON, E. and YOUNG, S. S. Y. Quantitative genetics in sheep breeding 482

HARRIS, HENRY. Cell fusion 483

KOVACS, I. (Ed.). Hungarian hybrid maize breeding 484

REPORT OF U.N. SCIENTIFIC COMMITTEE. Effects of atomic radiation . 485

BOOKS RECEIVED 486

GENETICAL SOCIETY OF GREAT BRITAIN: Abstracts of Papers . . . 487

PART 4. NOVEMBER

SHAUGHNESSY, P. D. (Adelaide). The genetics of plumage phase dimorphism of the southern giant petrel *Macronectes giganteus* 501

KIRK, J. T. O., REES, H. and EVANS, G. (Aberystwyth). Base composition of nuclear DNA within the genus *Allium* 507

DURRANT, A. and NICHOLAS, D. B. (Aberystwyth). An unstable gene in flax 513

KEARSEY, M. J. (Birmingham). Experimental sizes for detecting dominance variation 529

MAYO, O. (Edinburgh). The role of duplications in evolution 543

MORTON, J. R. (Cambridge). Analysis of gene action in the control of body weight and tail length in the mouse 555

HASKINS, C. P., YOUNG, PATRICIA, HEWITT, R. E. and HASKINS, EDNA F. (Washington). Stabilised heterozygosis of supergenes mediating certain Y-linked colour patterns in populations of *Lebistes reticulatus* 575

GIBSON, J. B. (Cambridge). Effects of temperature on selection for scutellar bristles 591

WESTERMAN, JANE M. and LAWRENCE, M. J. (Birmingham). Genotype-environment interaction and developmental regulation in *Arabidopsis thaliana*. I. inbred lines; description 609

NOTES AND COMMENTS:

ELTON, R. A. and GREENWOOD, J. J. D. Exploring apostatic selection . 629

JONES, D. A. On the polymorphism of cyanogenesis in *Lotus corniculatus*. III. Some aspects of selection 633

WHITTINGTON, W. J., HILLMAN, J., GATENBY, S. M., HOOPER, B. E. and WHITE, J. C. Light and temperature effects on the germination of wild oats 641

PETTIGREW, RONA and DRISCOLL, C. J. Cytogenic studies of a chlorophyll mutant of hexaploid wheat 650

DARLINGTON, C. D. Twin biology 655

BAKER, R. Studies on the RNA of the mate-killer particles of Paramecium 657

WESTERMAN, M. Parallel polymorphism for supernumerary segments in *Chorthippus parallelus* 662

REVIEWS:

Progress in molecular and subcellular biology, Vol. I 669

PIRCHNER, FRANZ. Population genetics in animal breeding 670

SMITH, C. A. B. Numerical methods, matrices, probability, statistics. Biomathematics, Vol. 2 671

MALÉCOT, GUSTAVE. The mathematics of heredity 673

MONTGOMERY HYDE, H. The other love 674

BOOK RECEIVED 677

GENETICAL SOCIETY OF GREAT BRITAIN. Abstracts of Papers 679

DARLINGTON, C. D. The progress of *Heredity* 691

INDEX OF AUTHORS 693

INDEX OF SPECIES 701

INDEX OF SUBJECTS 703
